## WHAT I SAW AT TPAC

### Reflecting on the Performance

**Discuss the performance with your students after you return to school.**

- What did they notice while watching the performance?
- What do they still wonder about it?
- What was their favorite part?

**Students Reflect:** On the back of this sheet, you will find a reproducible handout of the stage below for students to reflect on their experience. Ask students to think about the show, and to draw their favorite part on the stage. They may also choose to write a description along the bottom.

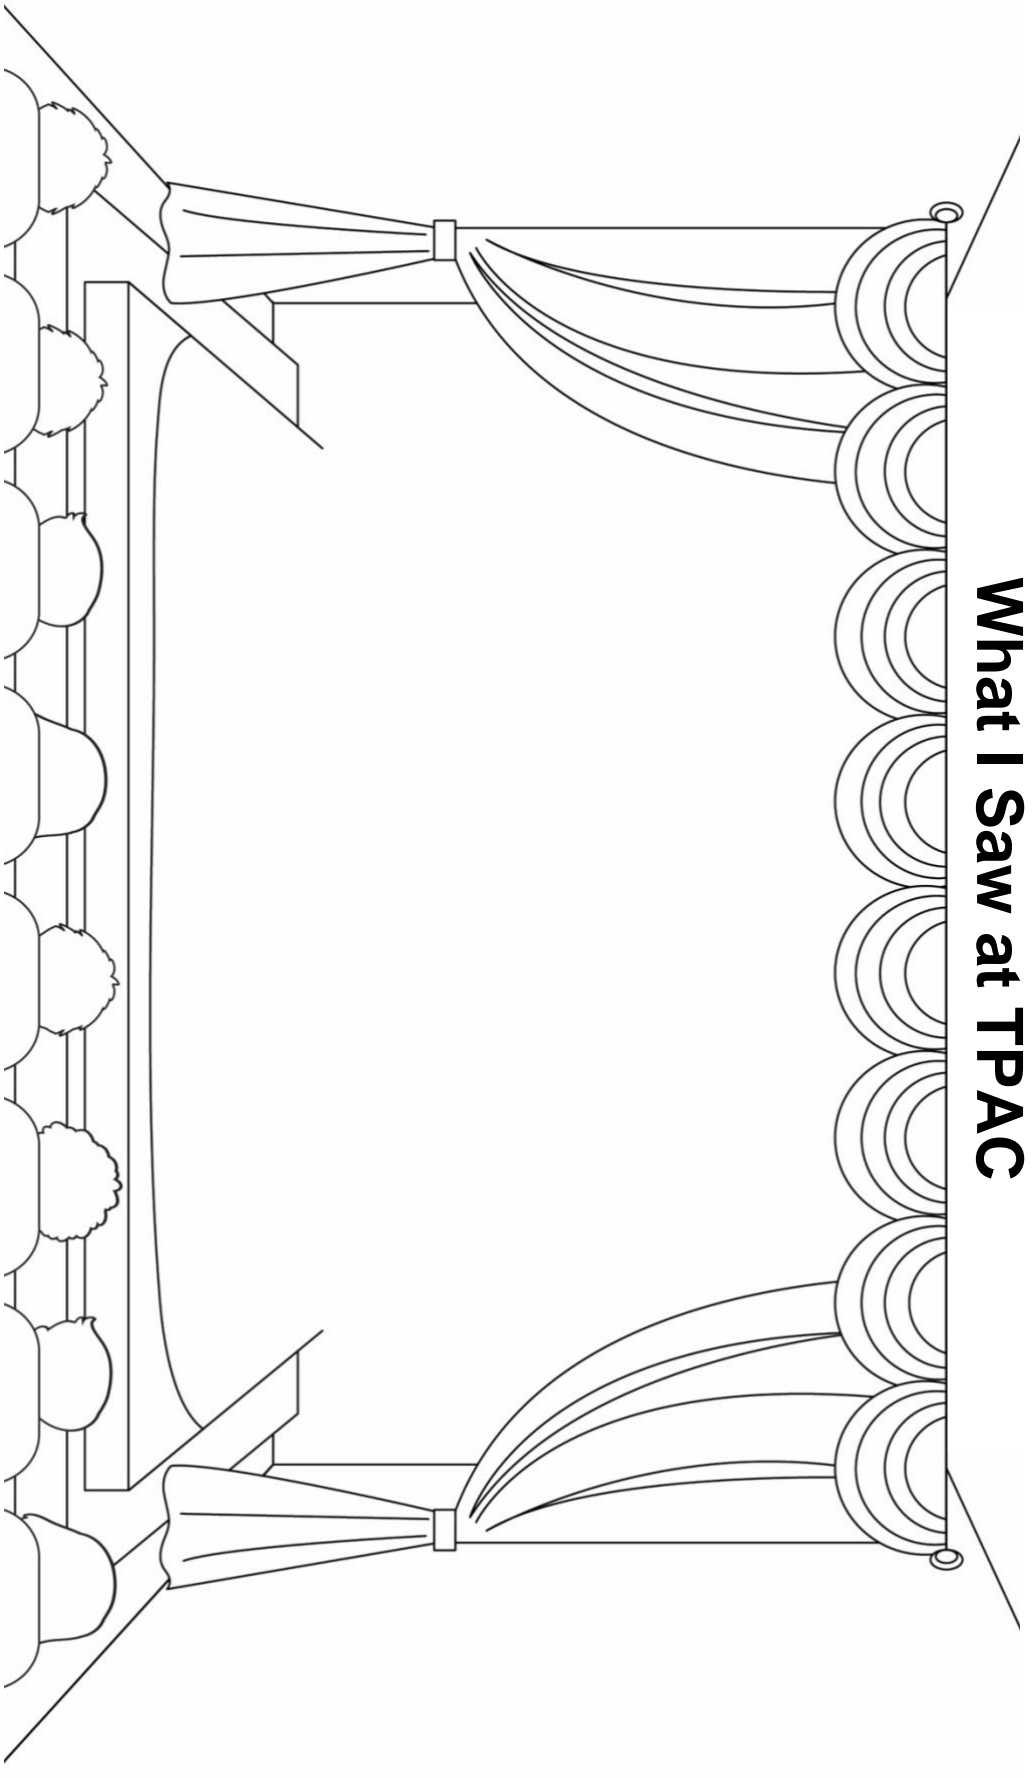

**Please consider sending a copy of your students' reflections to us!**

*We would love to see their drawings.*
